PUBLISHED DAILY AND TRI-WEEKLY AT GAZETTE BUILDING, 310 & 312 PRINCE STREET.

SERMONS OVER TELEPHONES.—One of the most alluring and fanciful ideas of the great dreamer, Bellamy, became a partial reality in Washington, Ind., on Sunday when every church in the city had a telephonic connection, so that churchgoers throughout the city, county, and in southern Indiana, could remain in their homes and listen to the services, instead of going through the heat to church. One of the telephone companies there put highly sensitive transmitters in all the churches in the city free of cost, and so arranged the system that any or all telephone patrons might call any church and listen to the sermon. Several thousand people in the city and county, besides those in surrounding counties, took advantage of the novel system, and yesterday the ministers had, probably, the largest audiences in years, although the churches had about the usual number of attendants. The system is the first of its kind in the country, and was installed under the direction of Cassius Alley, who is the inventor of the scheme. The results were highly satisfactory. The entire service was clearly heard throughout. The telephone company ran a number of temporary lines to the homes of invalid church members and to the hospitals, so that those unable to attend the services at church and couldn't afford to rent a telephone might be able to lie upon their bed of pain and listen to the services by telephone.

GREAT STREET CAR INVENTION.—A change in the method of street railway propulsion is the possible result of a trial that has been made in Chicago of a local invention. Small electric magnets imbedded between rails of the tracks are used to pull the cars. The electro-magnets form one-half of the motor and are placed in the ground in a line half-way between the tracks. The other part, the armature, is attached lengthwise to the bottom of the car. It is a long iron bar, cut up into feet and so attached that the ends ordinarily are within an inch of the top magnet boxes. But the primary difference between the new system and the trolley car motor is that the new car is not propelled by the friction of the wheels with the track, but by the invisible force of magnetism. Each magnet is connected with the main feed wires, heavily insulated and bringing electricity from the power house. When the car is not running over them the magnets are not in the circuit. An arrangement of the magnets according to polarity is the scheme for attracting the car and making it run smoothly. The great saving which the inventor claims is in the amount of electricity required. He says seventy-five amperes will suffice for forty cars, while with the present trolley system seventy-five amperes are required for one car.

DR. URIF'S NEW DUTIES.—Surgeon John F. Urif, the attending physician to President Roosevelt and his family, has been detached from the naval dispensary, Washington, and ordered to duty as assistant to the chief of the bureau of medicine and surgery in the Navy Department, relieving Surgeon J. D. Gatewood, who has been ordered to duty on the Lancaster. Under this new detail, Surgeon Urif will be almost constantly occupied at the Navy Department and will, therefore, be obliged to discontinue his professional attendance on the President and the members of the executive household. It has not yet been announced who will succeed him in that important capacity. It is a singular coincidence that the surgeon general has been physicians to the President, Dr. Rickie having acted in that capacity for President McKinley and also for President Roosevelt, and Assistant Surgeon General Urie having succeeded him as physician to the family of President Roosevelt.

FLED IN WEDDING FINERY.—In her bridal robe Miss Ivie Thompson, one of the most beautiful girls of Randolph county W. Va., fled from her home while the bridegroom, with the wedding guests, waited in the drawing room for her, a night or two ago. Bounding into a waiting carriage at the door, the fleeing bride fell into the arms of Will Rennix, the man she loved the best. Rennix lashed the horse into a gallop, and before Philip H. Wolfong realized that his bride had deserted him the clappers got a start, and pursuers mounted on swift horses could not overtake them. Rennix won his bride not in time to catch the Cumberland train, and when old John Thompson, the father of the girl, and the deserted bridegroom reached Cumberland on the next train Ivie triumphantly displayed a bit of parchment signed by a parson, which set forth that she was "Mrs. William R. Rennix."

At Denver the biennial convention of the Ancient Order of Hibernians began yesterday.

THE SAME OLD STORY.

J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and re-told by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by Richard Gibson, druggist.

MOTHER ALWAYS KEEPS IT HANDY.
"My mother suffered a long time from distressing pains and general ill health due primarily to indigestion," says L. W. Spalding, Verona, Mo. "Two years ago I got her to try Kodol. She grew better at once and now at the age of seventy-six, eats anything she wants, remarking that she feels no bad effects as she has her bottle of Kodol handy." Don't waste time doctoring symptoms. Go after the cause. If your stomach is sound your health strengthens the body by digesting your food. It is nature's own tonic. For sale by E. S. Leadbeater & Sons.

DRY GOODS.

I. Eichberg and Son.

"THE DIXIE"

MOSQUITO CANOPY

Frames and Nets.

Manufactured by the Southern Canopy Company, Knoxville, Tenn.

SOLD BY

Isaac Eichberg & Son.

The "Dixie" Canopy is no experiment, but has stood the test for years, improvements having been made each year, until we can say without any fear of contradiction that it is the most perfect mosquito canopy ever put before the American people. It is easily attached to any style of Wood, Brass, Iron or Folding Bed without detracting the same. We wish to call especial attention to the size of the COILED SPRING of the Dixie Canopy Frame. It is made large enough that constant use will not weaken it and cause the frame and net to hang out over the bed, instead of going back against the headboard, entirely out of the way.

It Requires No Step Ladder to Put it Up and is Always in Working Order.

Dry Goods, Notions, Carpets, Oil Cloths, &c.

MAY MANTON BAZAR PATTERNS

ALL PATTERNS 10 CENTS EACH.

Catalogues for sale at 10c each. These patterns are the best that can be purchased anywhere at any price. Try them and be convinced.
